National Park Service

Dear Park Service,

Thank you for accepting my comments concerning RIN 1024-AD72, the National Park Service rule change for bicycling. I fully support the proposed rule.

As an avid hiker and mountain biker of many years, I would very much

like to see more mountain bike accessible trails in our national parks. I feel this rule change is an important step in facilitating the selection of appropriate trails for bicycle access.

Thank you for considering my comment. Bicycling is a wonderful way to explore our national parks and I hope the proposed rule change will be implemented.

Sincerely,

Dr. Frederick Park
